PRODUCT DESCRIPTION

The 7/8 feet high Elite Cantilever Swing - 4 Bay 1 Cantilever is an exceptional set for big and busy playgrounds. Schools, churches, organizations, and parks will love the capacity of this swing set. It holds 9 children at once so kids can spend more time swinging and less time standing around for an open seat. The middle bays are 8-feet high, allowing for a larger range of motion that older children will love. A smaller, 7-foot high cantilever swing is available at the end of the set. Made for smaller children, it is perfect for bucket seats and offers a gentler, slower ride. This swing set can be ordered with chains and seats or without. The colors for the seat packages can be customized. Selecting the frame-only option grants you the ability to pick the seats you would personally like, such as ADA accessible seats. Tailor the package to your playground by choosing from a wide selection of color options for both the frame and the seats. Contact us for more information.
