

BENCH SHADE ATTACHMENT, ATTACHES TO STANDARD STYLE BENCHES WITH BACK ONLY

\$1,591.00

SKU: STS765BA

Categories: [Best Selling Shade](#), [Picnic Shade](#)

PRODUCT DESCRIPTION

Made from highly durable, fade resistant polyethylene fabric, this table shade will be sure to keep those harmful UV rays away from your skin. This fade resistant outdoor shade is a friendly addition to school and park seating areas.

Long lasting shade will protect your outdoor furniture from damaging weather and is engineered to withstand winds up to 90 mph. Shade is available in the colors shown below.

Our Bench Shade Attachment with Polyethylene Canopy is a unique way to provide a shaded area to your polyethylene-coated steel benches. It attaches to the frame of most of our 6 foot long Webcoat benches with 2-3/8" thick frames such as the Regal Style 6 Foot Bench. This will not work on a bench with a portable frame because they do not offer the stability of a surface or inground mounted one. The canopy is constructed of commercial-grade polyethylene that has UV-additives for fade resistance and is available in either blue, yellow, beige, or green to fit in with the rest of your area. The frame is just like the bench in that it is constructed of the same sturdy powder-coated steel. It attaches to the back and extends over upwards of 80 inches in the air. Customize this shade attachment by adding a plaque with your own logo or message - just call our friendly staff at **1-800-213-2401** to get started. Add shade and protection from the weather to your mounted bench with our Bench Shade Attachment with Polyethylene Canopy!

The Bench Shade Attachment is an innovative solution designed specifically to enhance the comfort and usability of standard style benches with backs. This product is a must-have for any outdoor space, providing essential protection against the sun's harmful rays while allowing users to enjoy picnics, gatherings, or simply relaxing moments in the shade. Crafted with durability and functionality in mind, the Bench Shade Attachment seamlessly integrates with existing benches, ensuring a secure fit. This attachment is part of our best-selling shade category, ideal for various settings including parks, playgrounds, and recreational areas. It is suitable for a wide age range, making it a versatile addition to communal spaces. The footprint and use zone specifications ensure that it meets safety standards, while its capacity allows for multiple users to enjoy the shaded area comfortably. Elevate your outdoor experience with the Bench Shade Attachment, where functionality meets style in outdoor seating solutions.
